

N ENERGY CORPORATION

BRIEF PROFILE

N ENERGY CORPORATION, provides cost effective Enterprise Solutions & Turn Key services that can be tailored to specific projects and typical requirements.

We have a professional team of qualified and experienced Engineers & Architects to design and execute the client's requirements in the field of BMS/EMS, IBMS, IT, HVAC, & Electrical Project and Maintenance & ARC job .

N ENERGY CORPORATION OFFERINGS TURNKEY SOLUTION....

- ≈ Building Management System (Validation as per US FDA standards)
- ≈ Life Safety System-Intelligent Fire Alarm
- ≈ Analogue / Digital CCTV Surveillance
- ≈ Interactive Access Control System
- ≈ Asset Tracking & Management
- ≈ Very Early Aspirating System & Gas Detection
- ≈ Gas based Fire Protection-FM200,
- ≈ Public Address System
- ≈ Rodent Repellent system
- ≈ Water Leak detection
- ≈ Third party Integration
- ≈ Air conditioning solution.
- ≈ Electrification – HT/LT WORK,MCC/PCC /APFC/PLC PANEL MFG.& INSTALL
- ≈ All type of Shutdown Job of HT/LT Work.
- ≈ Fire Hydrant system (sprinkler with Deluge valve,water velocity nozzle etc)

≈ HT/LT installation & layout.

≈ Manufacturing ,Erection, commissioning & testing of HT/LT power panels, control panels APFC , DRIVE, PLC , INSTRUMENT and dist. panels.

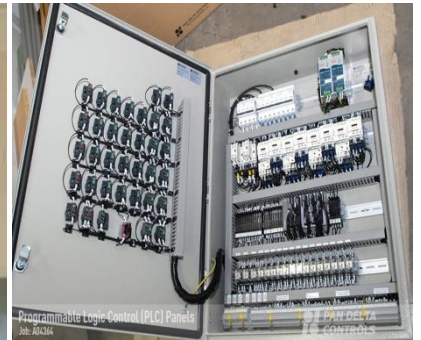

APFC PANEL

MCC PANEL

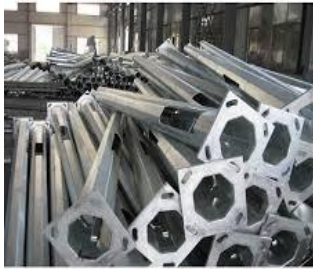

DRIVE PANEL

PLC PANEL

≈ Street light poles as well as high mast supply & install work.

LIGHTING POLES

STREET LIGHT

HIGHMAST WORK

WAREHOUSE LIGHTING

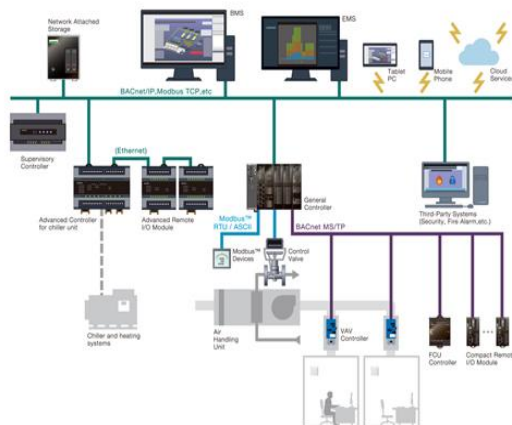

≈ All type over head & underground CABLE installation work.

CABLE & CABLE TRAY LAY, WIRE MASH TRAY TRAY WORK.

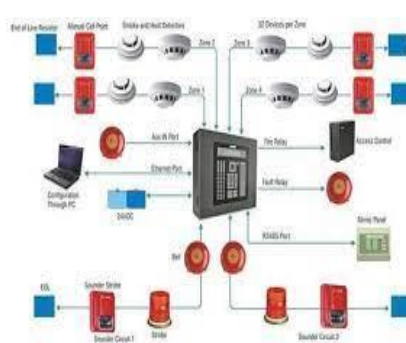

⌘ BUILDING AUTOMATION SYSTEM ⌘

- ≈ Fully programmable controllers, Intelligent Sensors.
- ≈ Management of the entire HVAC System from a single PC – single screen.
- ≈ Integration with other building sub-systems – Access Control, Video Surveillance, Fire Detection, Energy Management.
- ≈ Track and allocate energy usage against baseline measurements on a real-time basis.
- ≈ Monitors and analyzes energy consumption to ensure the facility is operating within set parameters and if not correct it to save on energy costs.
- ≈ Reporting and Analysis.

⌘ FIRE ALARM SYSTEM ⌘

- ≈ **DETECT** all things **SMOKE, FUMES, DUST, GASES & FLAMES**
- ≈ Distributed intelligence
- ≈ Integrated digital audio evacuation capability
- ≈ 256-318 intelligent analogue addressable devices per loop
- ≈ Large 16 Line 640 character backlit LCD display
- ≈ Simple installation, programming, and commissioning
- ≈ All new electronic equipment is Self Diagnosing for failure, reminds you when
- ≈ Maintenance is required
- ≈ Approvals Listed to UL 864, 9th Edition, FM approvals.

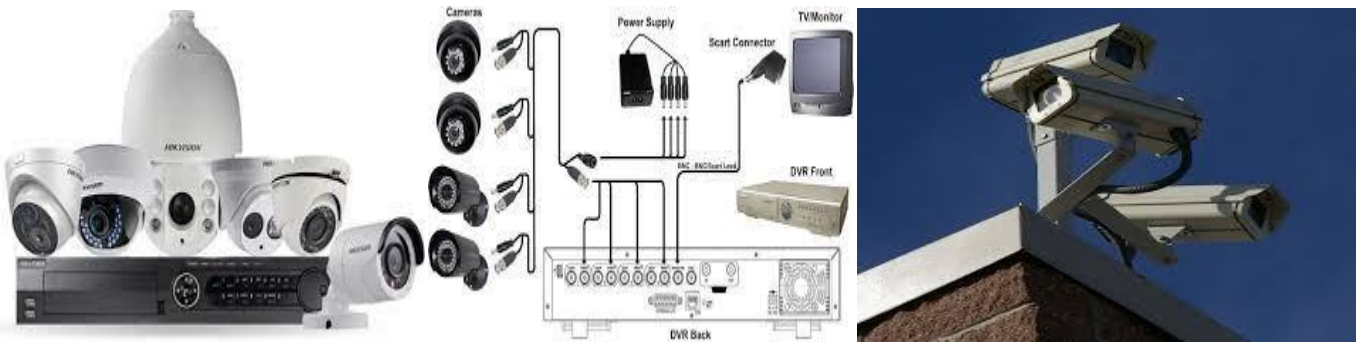

⌘ SECURITY SURVEILLANCE SYSTEM ⌘

≈ Comprehensive Product Suite based around:

- Access Control
- Video Surveillance
- Perimeter Protection
- Command, Control & Communication Software
- Integration with other building systems – HVAC, Fire, Utilities.

≈ Comprehensive wall-to-wall methodology based on turnkey security solutions & lifecycle support

≈ Global expertise in Various Segments – from Industrial Security to Commercial Establishments to Industrial facilities

⌘ INTEGRATION ⌘

≈ Scalable – start with a single PC Solution and grow to a multi site network of systems

≈ Versatility – start with any system (example Fire) and then add on other systems

≈ Open System – to ensure ease of integration / addition of other systems

≈ Integration into enterprise systems for better business outcomes

≈ Multiple user interfaces such as through web browser for the convenience and benefit of all the stakeholders

≈ Capturing, Logging, Storage of all data centrally with appropriate algorithms for analysis leading to standard/customized reports for actions

≈ Advanced Alarms and Events Management

TELCOM & IP PBX SOLUTION

IP PBX FOR LARGE OFFICES/INSTITUTIONS We offers various IP PBX models to cater specific needs of different sized offices as per their present requirement and future expandability. All these products have Universal slots to accommodate various types products support features and configuration requirements of modern day office requirements of IM, Voice Mail, Detailed Call Handling Features, Multi party conferencing, etc. They support IP Phones and Video Phone as well. All products support easy to use Web based programming capability and remote configuring ability.

PUBLIC ANNOUNCING & ADDRESSING SYSTEM:-

HVAC & AIR CONDITIONING SYSTEM:-

- >> ROOM COOLING. WITH SPLIT CASSETT, SINGLE MACHINE MULTIPLE PLACE FLOW
- >> DUCTABLE & DUCT LESS AIR CONDITIONING.
- >> VRV SOLUTION,
- >> COLD STORAGE AREA SOLUTION

❧ FIRE HYDRANT & SPRINKLER SYSTEM ❧

≈ HYDRANT SYSTEM AS PER NFPA(NATIONAL FIRE PROTECTION ACT)

GUIDELINES.

ARCHITECTURAL DESIGN WITH NFPA GUIDLINES COMPLETE SOLUTION, DESIGN & APPROVAL OF DRAWING & FIRE N.O.C. WORK.

FIRE HYDRANT ACCESSORIES

SPRINKLER & NOZZLES

DELUGE VALVE SPECIALITY

≈ ALL ACCESSORIES AND MATERIALS AS PER “IS – STANDARD”.

≈ SPRINKLER SYSTEM FOR STORAGE & SIGNIFIED SREAS.

❧ MAINTENANCE WORKS ❧

≈ Regular, quarterly and yearly maintenance job work of HT/LT

≈ ELV(Elect. Low Voltage circuit) Maintenance work

≈ Programming and familiar with HONEYWELL,ABB & SCHEIDER equipment system.

≈ FIRE ALARM SYSTEM,ACCESS CONTROL,CCTV & BULDING MANAGEMENT SYSTEM

≈ROUTINE MAINTENANCE & TESTING FACILITY.

≈ANNUAL RATE CONTRACT / ANNUAL MANPOWER CONTRACT FOR ELECTRIC WORK

.....We give you assurance that we serve our best which you expect from us, we always try to find that's way which is milestone for others. We like to do business with your company, We have all required legal documents like..... *P.F. CODE, ESIC CODE, GOVT. CONTRACT LICENSE, SERVICE TAX NUMBER, SALE TAX ETC.....*_We hope that from your side we can get ENQUIRIES in regular basis & accepting your best support to us.

Please free feel contact to us on our mentioned numbers.
